

all done checkbox deleted to make the lines readable

no-show project

▼ tasks to do “Typed it when i read df.dtypes()”

- ☐ lower all the columns name
- ☐ gender to str
- ☐ scheduelDay, AppointmentDay, to date time
- ☐ variables for show and no show
- ☐ check value counts of Neighbourhood and i think i will delete it
- ☐ check value counts of **Scholarship** and i think i will delete it
- ☐ from **scholarship** column to no show make values(yes or no)
- ☐ can make no-show rows = (came-not came) or something like that

▼ while reading df.info()

- ☐ check duplicates

▼ while reading df.describe()

- ☐ wtf is -1 age and 0 age 😊
- ☐ what is 4 **Handcap**?
